Professional Summary

- Bachelor of Technology in Computer Science and Engineering undergraduate at Parul University with strong problem-solving skills and hands-on experience in Data Structures and Algorithms using Java, MERN Stack development (MongoDB, Express.js, React.js, Node.js), and Data Analytics using Power BI and Advanced Excel.
- Passionate about learning new technologies, building efficient and scalable software solutions, and contributing to real-world projects.

Education

Parul University	2023 – 2027
<i>Bachelor of Technology in Computer Science and Engineering GPA: 7.24</i>	<i>Vadodara, Gujarat</i>
Government Senior Secondary School, Sagwara	2023
<i>Higher Secondary Certificate – Rajasthan Board of Secondary Education Score: 71.20%</i>	<i>Sagwara, Rajasthan</i>
Flower Kids Senior Secondary School, Sagwara	2021
<i>Secondary School Certificate – Rajasthan Board of Secondary Education Score: 93.00%</i>	<i>Sagwara, Rajasthan</i>

Technical Skills

Languages: Java, C, Python, JavaScript, HTML, CSS
Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), RESTful APIs
Frameworks and Libraries: React.js, Bootstrap, Tailwind CSS
Database Management: MongoDB
Data Analytics: Power BI, Data Visualization, Advanced Excel
Developer Tools: Git, GitHub, VSCode, Postman, npm, yarn
Cloud Deployment: AWS (S3, EC2), Render, Netlify
Concepts: Data Structures and Algorithms, Object-Oriented Programming
Soft Skills: Teamwork, Communication, Problem-Solving, Debugging, Self-Learning

Projects

CPY Ambulance – Care Protect You | *React.js, Node.js, MongoDB*

- Developed a full-stack ambulance booking system with real-time location detection, enabling faster emergency response and improving user accessibility.
- Integrated automated email and WhatsApp notification system to alert users and administrators instantly upon booking confirmation.
- Implemented a secure admin approval workflow to manage and monitor ambulance requests, improving operational efficiency and system reliability.

Personal Portfolio Website | *React.js, Node.js, Express.js, MongoDB*

- Built a responsive full-stack portfolio web application using the MERN Stack (MongoDB, Express.js, React.js, Node.js) for real-world deployment.
- Designed and implemented RESTful APIs with secure user authentication to manage dynamic content and ensure data integrity.
- Deployed a fully responsive user interface ensuring cross-device compatibility and enhanced user experience across all screen sizes.

Certifications and Trainings

Data Structures and Algorithms | *Smart Interviews, Parul Institute of Technology*

Computer Networks | *NPTEL*

Typing Speed – 60 Words Per Minute | *Typing Certificate*
