Summary

Computer Science & Engineering undergraduate at Parul University (2023–2027) with strong problem-solving skills and hands-on experience in Data Structures & Algorithms (DSA) using Java, full-stack MERN development (MongoDB, Express.js, React.js, Node.js), and Data Analytics with Power BI and Advanced Excel. Solved **200+ problems on LeetCode**. Passionate about building efficient, scalable software solutions and contributing to impactful real-world projects.

Education

Bachelor of Technology – Computer Science & Engineering

Parul University, GPA: 7.41

2023 – Present

Vadodara, Gujarat

Higher Secondary Certificate – Class XII

Rajasthan Board of Secondary Education (RBSE), Score: 71.20%

2023

Sagwara, Rajasthan

Secondary Certificate – Class X

Rajasthan Board of Secondary Education (RBSE), Score: 93.00%

2021

Sagwara, Rajasthan

Technical Skills

Languages: Java, C, Python, JavaScript, HTML, CSS

Full-Stack / MERN: MongoDB, Express.js, React.js, Node.js, RESTful APIs

Frameworks & Libraries: React.js, Bootstrap, Tailwind CSS

Data Analytics: Power BI, Data Visualization, Advanced Excel

Cloud & Deployment: AWS (S3, EC2), Render, Netlify

Developer Tools: Git, GitHub, VS Code, Postman, npm, Yarn

Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), MVC Architecture

Soft Skills: Teamwork, Communication, Problem-Solving, Debugging, Self-Learning

Projects

CredIQ – AI Credit Statement Analyzer | *Python, OCR, NLP, LLM, React.js, Flask, MongoDB* | [GitHub](#)

2026

- Built a full-stack AI app to extract, categorize, and analyze credit statement transactions using OCR, NLP, and LLM-based processing.
- Implemented RAG-based retrieval for natural-language querying of statements and an interactive React.js dashboard for spending analysis, backed by Flask and MongoDB.

CPY Ambulance – Care Protect You | *React.js, Node.js, MongoDB, Express.js* | [GitHub](#)

2025

- Built a full-stack ambulance booking system with real-time GPS tracking, cutting estimated dispatch time by ~40%.
- Automated email/WhatsApp alerts and an RBAC-based admin approval workflow for reliable request management.

Personal Portfolio Website | *React.js, Node.js, Express.js, MongoDB* | [GitHub](#)

2024

- Built a responsive full-stack MERN portfolio with JWT-secured REST APIs, deployed on Netlify.
- Achieved a **90+ Lighthouse score** across **5+ screen sizes** with a fully responsive UI.

Certifications

AWS Academy Cloud Foundations | *AWS Academy*

Sep 2025

- Covered core AWS services including S3, EC2, IAM, and cloud deployment fundamentals relevant to production-grade application hosting.

AI Fundamentals with IBM SkillsBuild | *IBM SkillsBuild / Cisco Networking Academy*

Aug 2025

- Completed structured training on artificial intelligence fundamentals, machine learning concepts, and practical AI application use cases.

Data Analytics Essentials | *Cisco Networking Academy*

Aug 2026

- Completed training on data analytics fundamentals, covering data collection, processing, and analysis techniques for deriving actionable insights.

Data Structures and Algorithms (DSA) | *Smart Interviews, Parul Institute of Technology*

July 2025

- Completed in-depth DSA program covering arrays, trees, graphs, dynamic programming, and competitive problem-solving in Java.

Relevant Coursework

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management Systems
- Computer Networks
- Operating Systems
- Web Development (MERN Stack)

Personal Details

Date of Birth: 30 October 2004

Languages Known: English, Hindi

Nationality: Indian

Location: Rajasthan, India
